

# Freight Highway Upgrade Program

## Survey works - Dukes Highway, Tintinara

The Australian and South Australian governments have committed \$500 million (80:20) over 10 years to improve the safety and reliability of national freight routes. This includes the upgrade of three major highways in South Australia.

### What's happening:

We are undertaking engineering survey works on the Dukes Highway, approximately 4km east of Tintinara to help inform our planning for this section of the highway.

### How this affects you:

To safely undertake these works there will be changes to traffic conditions to keep everyone safe. Speed and lane restrictions will be in place on Dukes Highway during working hours. Please follow traffic management directions while works are in progress.

We'll maintain access for properties throughout the works wherever possible, with advance notice provided if there is a need to restrict driveway access temporarily.

**Access for emergency vehicles will be maintained at all times during works.**

### For further information:
