

Mallee Highway Safety Upgrades

Tailem Bend to Peake - works notice

We are upgrading the Mallee Highway from Tailem Bend to Geranium, to improve long term safety and efficiency for all road users. These works form part of the \$168 million Road Safety Program 2023-2025, jointly funded by the Australian (50%) and South Australian (50%) governments.

What's happening:

Works on the section from Tailem Bend to Peake will commence shortly. This will include road resealing, shoulder sealing, curve widening and the installation of safety barriers, line marking and some vegetation management. The upgrades are designed to improve safety, freight efficiency and support regional economic growth.

Works on Mallee Highway between Peake and Geranium will continue until March 2025.

How this affects you:

Construction activities will move around the extent of the works location as different activities progress. To do this work safely we'll have speed and lane restrictions in place. Please plan your trips, be cautious around workers and follow the speed limits and signs. Outside of work hours speed restrictions will remain in place subject to onsite conditions.

You will still be able to access homes and properties. If we need to limit or impact access, we'll contact property owners ahead of time. If you have any questions regarding access, we encourage you to contact us to discuss.

During the works, there might be some noisy disruptions from time to time, but we'll do our best to keep the noise to a minimum. You might also notice some odours, which is normal during resurfacing work.
