

St Bernards Road, Hectorville Pedestrian Actuated Crossing

Works Notice

We are making it safer and more convenient for pedestrians to cross St Bernards Road

We are delivering critical road safety upgrades and improvements on remote, regional, urban roads, footpaths and cycle paths around South Australia. The \$168 million Road Safety Program is jointly funded by the Australian (50%) and South Australian (50%) governments over three years.

What's happening

We are installing a new Pedestrian Actuated (push button) Crossing on St Bernards Road, between Karawirra Avenue and Reid Avenue, Hectorville. Works will include:

- A new Pedestrian Actuated (push button) Crossing.
- Upgraded pedestrian ramps
- Upgraded centre median.
- Upgraded street lighting.
- New line marking and road signage.

This will improve pedestrian safety and access to nearby retail shops, businesses and homes, while improving pedestrian connectivity across St Bernards Road.

How this affects you

St Bernards Road will remain open to traffic at all times.

To do these works safely, there will be changes to existing traffic conditions for the duration of the project. **During work hours, St Bernards Road will be reduced to a single lane under speed restrictions.** Please plan your trips, follow the direction of onsite traffic controllers and observe onsite signage.

When

Wednesday, 4 December 2024 to March 2025, weather permitting

Hours of work

Day Works

Monday to Friday between 9am and 4pm

Night Works

Intermittently from Sunday to Thursday between the hours of 7pm and 6am

Some Saturday works may also be required.

Where

St Bernards Road, between Karawirra Avenue and Reid Avenue, Hectorville

Outside of working hours all lanes will be reopened to traffic, with speed restrictions remaining in place until all works are completed in March 2025.

Access to businesses and properties will be maintained. If temporary access restrictions are required affected property owners, residents and businesses will be contacted directly in advance.

Pedestrian and cyclist routes may be impacted as works progress. Onsite signage will help guide you to alternative routes if required.

Some noise can be expected while these works are undertaken, but we'll do our best to keep impacts to the local community to a minimum.

No works will occur from Thursday 19 December 2024 to Monday 6 January 2025, however speed restrictions will remain in place during this time subject to site conditions.

We thank you for your understanding while these critical safety upgrades are undertaken.
