

Main North Road and Nottage Terrace Intersection Upgrade

The Australian and South Australian Governments are jointly funding the \$19 million upgrade of the Main North Road and Nottage Terrace intersection to improve travel times, network reliability and safety for all users.

The current proposed treatments for the intersection include:

- widening of Main North Road (west side), with the installation of dual right turn lanes onto Nottage Terrace travelling eastbound, two through lanes on Main North Road travelling northbound, and the addition of a priority bus lane through the intersection travelling northbound;
- widening of Main North Road (east side) to accommodate the left turn lane onto Nottage Terrace travelling eastbound and the extension of the bus priority lane at the intersection travelling southbound;
- widening of Nottage Terrace (south side) to accommodate the extension of the right turn lanes travelling northbound from Nottage Terrace onto Main North Road;
- changes to access on Wilson Street, College Avenue and Victoria Avenue to accommodate the proposed treatments;
- upgraded pedestrian crossings within the intersection, including new pedestrian crossing lights and ramps;
- extension of the existing northbound bicycle lane on Main North Road through the intersection;
- pavement construction and surfacing; and
- new and upgraded traffic signals, road lighting, line marking, and drainage.

Have your say

The Department of Planning, Transport and Infrastructure would like to invite the community and stakeholders to provide feedback on the concept design. Your feedback will be provided to the project team for review and consideration and will help inform the detailed design.

To view the draft concept design and provide feedback, please visit the project website at: www.dpti.sa.gov.au/nottage. You can also speak to the project team by calling 1300 794 880. Feedback can be provided until COB Friday 8 May.

Early site investigation works

As part of the early design process, site investigation works to identify the location and depth of utility services in the vicinity of the proposed upgrade site will commence Monday, 27 April, continuing to early May, weather permitting.

These works will be undertaken during the day, Monday to Friday, between the hours of 9am and 4pm, weather permitting.

Access for emergency services vehicles, pedestrians and properties (both residential and commercial) will be maintained at all times.

Transport and Infrastructure

Pedestrians are reminded to keep clear of the work zones, however traffic management will be in place throughout these works to assist with pedestrian and cyclist movements.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to local residents and businesses as much as practically possible.

Please plan ahead, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Service relocation works are expected to commence in the third quarter of 2020, with main works expected to commence in early 2021, weather permitting.

If you require further information or would like to register your interest in the project, please visit the project website, email dpti.communityrelations@sa.gov.au or telephone 1300 794 880.

Kind regards,

Main North Road and Nottage Terrace Intersection Upgrade Project Team
