

# SA Regional Bridge Upgrades

## Hindmarsh River Bridge, Hindmarsh Tiers Road, Myponga - Safety Barrier works

### What's happening:

We are undertaking safety barrier works on the bridge over Hindmarsh River, on Hindmarsh Tiers Road (near Myponga). These works are funded by the South Australian Government as part of the Bridge Stimulus Package.

### How this affects you:

To do this work safely, during working hours Hindmarsh Tiers Road will be reduced to a single lane with traffic controllers in place to control the direction of traffic and assist pedestrians or cyclists to pass through the work zone.

Outside of working hours, some speed and lane restrictions may be required.

Please plan your trips, be cautious around workers, and follow the speed limits and signs.
