

# East Parklands Road Upgrades

## Hutt Street and Bartels Road intersection

General maintenance works are required to remediate sections of the East Parklands area to improve the road surface and safety for all users.

### What's happening:

Maintenance activities will include pavement removal and new asphalt resurfacing on the southern corner of the Bartels Road/Hutt Street intersection.

### How this affects you:

In addition to ongoing works, speed and lane restrictions will be required at the intersection of Hutt Street and Bartels Road with detours in place for one day. Please refer to the plan overleaf for further information.

Please follow onsite traffic signage and follow the direction of traffic controllers while works are in progress. We will directly contact residents and businesses located in the work area to advise of any parking and/or access restrictions because of works.

Some Adelaide Metro bus services and bus stops within the works area may be temporarily impacted while works are undertaken. Please observe bus stop signage and visit [www.adelaidemetro.com.au](http://www.adelaidemetro.com.au). Pedestrians and cyclists might also need to use a different path during the works; however, signs will show you where to go.

During the works, there will be some noisy disruptions from time to time, but we'll do our best to keep the noise to a minimum. You might also notice some odours, which is normal during asphalt work.

**Finishing works will continue to be undertaken between 7pm and 6am between Monday 27 May 2024 and Friday 31 May 2024**
