

# Stuart Highway, Lake Windabout

## Flood Remediation Works Notice

### We are undertaking flood remediation works on the Stuart Highway at Lake Windabout

The Australian and South Australian Governments have committed \$75 million (80:20) over four years to fund the Targeted Investment to Improve National Supply Chain Resilience program.

### What's happening

As part of the program, flood recovery works will be undertaken on the Stuart Highway at Lake Windabout to improve flood resilience and remediate sections of road damaged during previous weather events.

### How this affects you

To do this work safely, there will be speed and lane restrictions in place for the duration of the works. Please follow onsite signage, drive with care and observe the direction of onsite traffic controllers.

Speed restrictions will be in place intermittently, including outside of work hours, until line marking is fully complete which is expected by August 2025.

**Access for heavy vehicles will be maintained at all times.**

We thank you for your understanding while these critical safety upgrades are undertaken.

#### When

Monday, 18 November 2024 to August 2025, weather permitting

#### Hours of work

##### Monday to Friday

Between the hours of 6am and 6pm

Some Saturday and Sunday works may be required

#### Where

Stuart Highway, Lake Windabout
