

Darlington Upgrade Project

Lowered Motorway closures

December 2020

As part of the Darlington Upgrade Project, night and weekend works will be undertaken in the lowered motorway and on South Road to install the final layer of asphalt and line marking, weather permitting. Please see times, closures and traffic management listed below.

8pm Tuesday, 1 December - 6am Wednesday, 2 December

Lowered Motorway, northbound (Map E)

The northbound lanes of the lowered motorway will be closed. Northbound motorists on the Southern Expressway will be required to exit onto Marion Road, right onto Sturt Road, to the Main South Road surface road (**see the red arrows on Map E**).

8pm Wednesday, 2 December - 6am Thursday, 3 December

Lowered Motorway, southbound (Map D)

The southbound lanes of the lowered motorway will be closed. Access to Bedford Park will be via the Main South Road surface road. Access to the Southern Expressway will be via Sturt Road and Marion Road (**see the blue arrows on Map D**).

Lowered Motorway, northbound (Map D)

The northbound lanes of the lowered motorway will be closed. Northbound motorists on the Southern Expressway will be required to exit onto Marion Road (**see the red arrows on Map D**).

To ensure the safety of all road users, speed and lane restrictions will remain in place outside of the hours of works.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to local residents as much as possible.

Once the works are complete, speed restrictions will remain in place along the newly resurfaced section for approximately six weeks, to enable excess bitumen to be worn to a safe level prior to the posted speed limit being reinstated, weather permitting.

Please plan ahead and allow extra travel time, and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.
