

Portrush and Magill Roads Intersection Upgrade

Construction Update and Night Works

The Department for Infrastructure and Transport (the Department) will be upgrading the intersection of Portrush and Magill roads to improve travel times, connectivity, capacity and safety for all users. The \$98 million upgrade is jointly funded by the Australian and South Australian governments.

As part of the project, the Department has undertaken property demolition, service relocations and early investigation works along Portrush Road and Magill Road to facilitate the new intersection upgrade. These early works are nearing completion and major works on the intersection are due to commence in early April 2021, with project completion expected in 2022.

Time of Works

The majority of the works will be undertaken Monday to Saturday, between 7am and 6pm.

Speed restrictions will be in place during the works, and lane restrictions will be implemented intermittently to maintain the safety of road users and workers. Night works will be required on several occasions during major construction, and are expected to commence in April 2021 (see below for upcoming night works).

Please take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Public transport services will remain operational however, bus stops may require temporary relocation. Advance notice of any temporary changes will be provided at the bus stops and on the Adelaide Metro website www.adelaidemetro.com.au.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be a need to restrict some access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

Upcoming Night Works

Works including the removal of existing traffic islands, and the installation of Common Service Trench (CST), will be undertaken at night.

In order to minimise the impact to road users and ensure these works can be completed safely and efficiently, works will be undertaken **between 7pm and 6am from Tuesday, 6 April 2021, until Friday, 23 April 2021**, weather permitting.

Every effort made to minimise impacts to surrounding properties and road users, as much as practically possible.

**BUILDING
WHAT MATTERS**

Excavators, hydrovac truck, profilers, tippers, compaction equipment and lighting towers will be used during these works, and some noise disturbance can be expected at times, however the work will be managed to minimise disruption as much as practically possible.

While speed and lane restrictions will be in place during these works, the intersection will remain open. Access for properties will be maintained throughout the works and every effort will be made to minimise impacts to surrounding properties and road users.

The Department appreciates your patience and cooperation whilst these important works are undertaken.

An updated intersection concept plan, which also shows the proposed vegetation and landscaping for the project, is now available on the project website at www.dit.sa.gov.au/magill.
