

Goodwood, Springbank and Daws Road Intersection Upgrade

Temporary road closures for night works

The Department for Infrastructure and Transport (the Department) is upgrading the intersection of Springbank, Daws and Goodwood Roads to improve travel times, connectivity, capacity and safety for all users. The \$61 million project is jointly funded (50:50) by the Australian and South Australian governments.

Night works will restart tonight on this project to ensure these essential works can be delivered for the safety and benefit of the South Australian community.

The following temporary road closures are required to safely facilitate these night works:

- **Monday, 26 July 2021 between 8pm and 6am** - access to **Springbank Road will be closed** between Eliza Place and the new intersection; and
- **Tuesday, 27 July 2021 between 8pm and 6am** - access to **Springbank Road (westbound) will be closed between Eliza Place and the new intersection.**

In the event of inclement weather these works may be rescheduled to either Thursday, 29 July 2021 or Friday, 30 July 2021.

The intersection will reopen each morning at 6am. Local access will be maintained at all times for residents, buses and emergency services vehicles.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise the disturbance to nearby residents and businesses as much as practically possible.

Please plan ahead and allow extra travel time, take extra care when workers are on site, and observe speed and lane restrictions and signage when travelling through the area.

Public transport services will remain operational however, bus stops may require temporary relocation. Advance notice of any temporary changes will be provided at the bus stops and on the Adelaide Metro website www.adelaidemetro.com.au.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

Every effort will be made to minimise impacts to the community.

The Department appreciates your patience and cooperation whilst these important safety works are undertaken. The Department will continue to be guided by the latest health advice with COVID-19 safe plans in place for these works.
