

Gawler Rail Electrification Project

Park Terrace, Salisbury level crossing temporary closure

The Australian and South Australian governments have jointly committed \$715 million as part of the electrification and modernisation of the Gawler rail line to deliver a faster, cleaner and more reliable service, delivering an electrified network through Adelaide from Gawler to Seaford.

As part of this project, the Park Terrace, Salisbury road level crossing will be temporarily closed to undertake testing of the new signalling system. This will include running test trains intermittently within the rail corridor.

Location: works will be undertaken within the rail corridor. To ensure the works can be undertaken safely, the **Park Terrace road level crossing** will be intermittently closed to all traffic while works are carried out.

When: works will be undertaken on Sunday, 7 November 2021, weather permitting to minimise the impact to traffic during peak times.

Hours of work are between 8am and 8pm and the level crossing will be intermittently closed between 2pm and 8pm. Each closure within this period will last for approximately 30 minutes.

Traffic management and detours: to safely facilitate these works detours will be in place to direct motorists to alternative crossing points via Gawler Street and Salisbury Highway (refer to map). Please plan ahead, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Access to local businesses and residences in the area will be maintained during these works. Please continue to support the local businesses. Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access.

Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours. Every effort will be made to minimise impacts to the community.

BUILDING OUR FUTURE

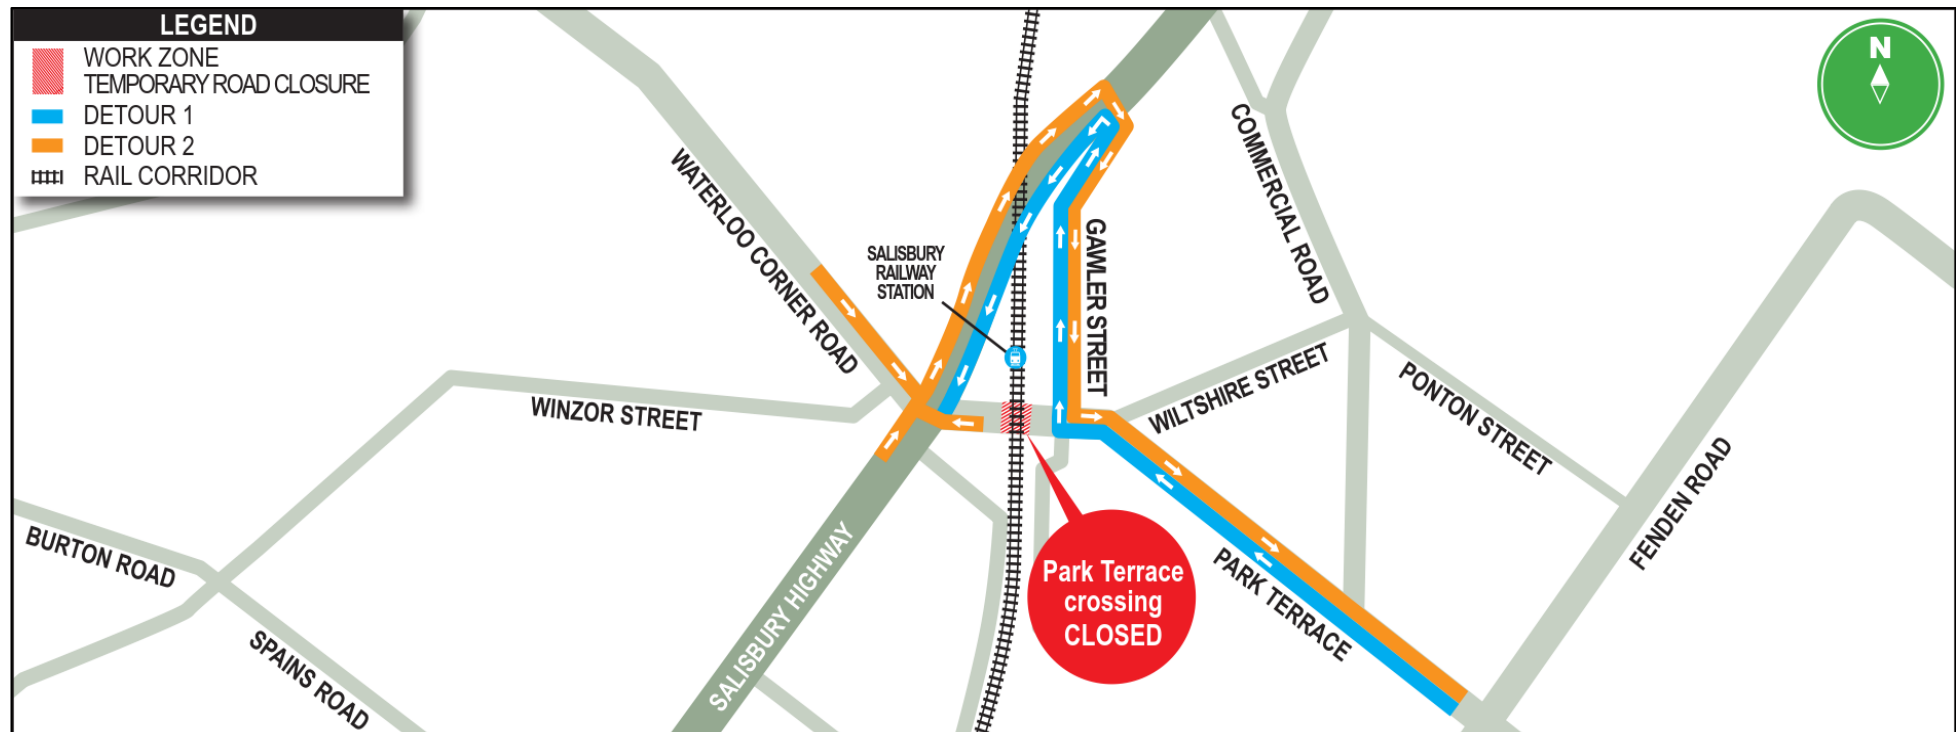

Government
of South Australia

**BUILDING
WHAT MATTERS**

What you can expect: works will involve making changes to the signalling system at the level crossing, with test trains running intermittently within the rail corridor. Please pay attention when using the dedicated pedestrian crossings and look out for oncoming trains. The work will be managed to minimise disturbance to nearby residents and businesses as much as is practically possible.

The Department appreciates your co-operation and patience while these important works are undertaken
