

Gawler East Link Road Project Project Update – Community Letter

Dear Resident/Business Owner

The State Government (DPTI) takes this opportunity to provide an update on the Gawler East Link Road Project.

Between March and October 2017, DPTI completed extensive technical investigations as well as a community and stakeholder consultative process in relation to the proposed Gawler East Link Road “Eckerman Alignment”.

Following this, an intensive review process was undertaken to consolidate and consider all findings, issues and opportunities.

As a result, it was determined that the best outcome is for the Gawler East Link Road to follow the State Government (DPTI) Alignment. A map is attached for your convenience.

An upgrade of the Main North Road intersection with Tulloch Road, including the installation of traffic signals, will also be delivered.

The next step is for DPTI to engage with key stakeholders to inform them about the updated Gawler East Link Road Project.

For further information, please contact the Gawler East Link Road Project team by telephone: 1300 282 939 or email: gawlereastlinkroadproject@sa.gov.au

Yours sincerely

Wayne Buckerfield
