

Darlington Upgrade Project

Major traffic switch 20 – 22 July

The Darlington Upgrade Project is being constructed in stages to ensure traffic continues to flow efficiently through this important section of the North-South Corridor.

To enable works to progress to completion, several major traffic switches need to occur on Main South Road between the Southern Expressway and Ayliffes Road. They will involve traffic being moved progressively into the lowered motorway and onto the new Main South Road bridge to the lowered motorway and the Ayliffes Road bridge.

Works to implement the first of these major switches will commence at 5am Saturday 20 July.

This flyer outlines the details of this traffic switch.

Changed Access Arrangements

**From: Southern Expressway
To: Ayliffes Road**

Southern Expressway motorists wanting to travel to Ayliffes Road will need to position themselves in the right-hand lane of the expressway. This lane will proceed along the new lowered motorway (see the blue arrows on the plan overleaf).

**From: Main South Road (northbound)
To: Ayliffes Road**

Northbound Main South Road motorists wanting to travel to Ayliffes Road will need to position themselves in the right-hand lane. This lane will proceed on the new Main South Road bridge into the lowered motorway (see red arrows on the plan overleaf).

**From: Main South Road (northbound)
To: South Road**

Northbound Main South Road motorists wanting to travel to South Road will need to position themselves in the two left-hand lanes (see purple arrows on the plan overleaf).

**From: Ayliffes Road (southbound)
To: Southern Expressway**

Southbound Ayliffes Road motorists wanting to travel to the Southern Expressway will need to position themselves in the centre or right-hand lane of Ayliffes Road (see orange arrows on the plan overleaf).

**From: South Road (southbound)
To: Southern Expressway**

Southbound South Road traffic wanting to travel to the Southern Expressway will need to position themselves in the two right-hand lanes of South Road. These lanes will travel into the new lowered motorway (see green arrows on the plan overleaf).

All other movements will remain as they currently are.

Flinders Medical Precinct access

Main South Road motorists will continue to access the Flinders Medical Precinct as per current arrangements.

Northbound motorists on the Southern Expressway will need to position themselves in the two left-hand lanes in order to access Flinders Drive. Please refer to the yellow arrows on the plan.

Major traffic switch

July 2019

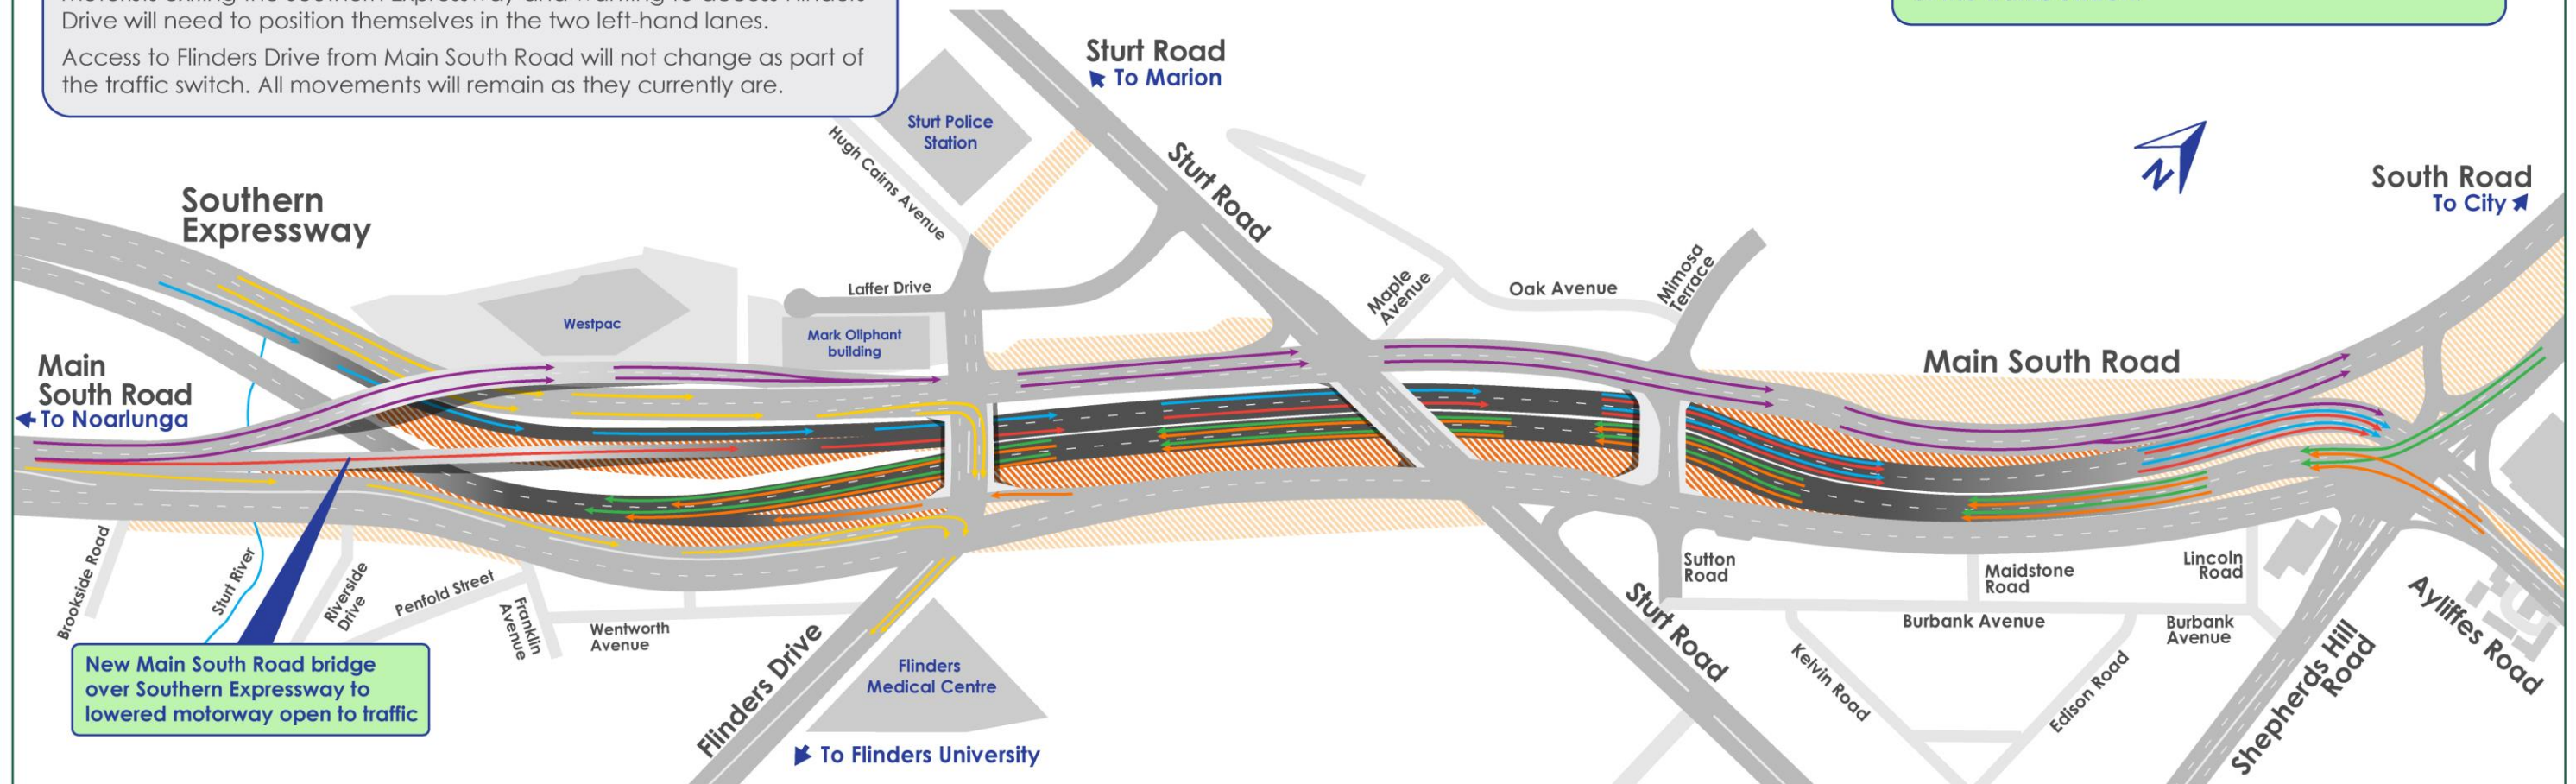

Flinders Drive Access

Access to the Flinders Medical Precinct from the Southern Expressway will change as part of the traffic switch.

Motorists exiting the Southern Expressway and wanting to access Flinders Drive will need to position themselves in the two left-hand lanes.

Access to Flinders Drive from Main South Road will not change as part of the traffic switch. All movements will remain as they currently are.

Aside from the movements highlighted on the plan below, all other movements will remain as they currently are and will not change as part of the traffic switch.

Drive with care

Over the weekend of 20-22 July a number of activities will take place for the traffic switch.

Please plan ahead, allow additional travel time, take extra care when workers are on site and observe speed and lane restrictions.

Traffic controllers will be in place and signage will alert motorists to the changed traffic conditions.

Closely observe signage

The traffic switch will result in significant access changes on Main South Road.

In many cases, motorists will be required to position themselves in a particular lane in order to reach their destination. Please closely observe signage.

Bus stops

Bus stops and services will not be affected by this traffic switch.

Upcoming traffic switches

Following this traffic switch, a further switch will be implemented which will see traffic moved onto the new Ayliffes Road bridge.

Further information regarding this traffic switch will be provided once the date and details are finalised.
