

Gawler Rail Electrification Project

Have your say on the proposed King Street Pedestrian Bridge

Works on the Gawler Rail Electrification Project are progressing well with the team anticipated to commence works in the Gawler area late 2020.

Following feedback received from community consultation and discussions with the Town of Gawler Council and an independent Heritage Advisor, the Department for Infrastructure and Transport (the Department) has developed a King Street Bridge concept design for community consideration.

The proposed bridge design has incorporated the following feedback:

- Removal of steps and ramps to improve access on both sides of the bridge
- Urban design sympathetic to local heritage environment
- Open steel structural design reflects traditional railway structures
- Materials and colour palette complementary to surrounding heritage
- Anti-climb, increased safety and reduced opportunity for graffiti and vandalism

Further consideration regarding branding and landscaping will be progressed separately by the Town of Gawler Council. The Council is also considering the installation of a storyboard close to the bridge, to celebrate the heritage aspects of the bridge and the King Street area.

The Project Team are seeking your comments on the design of the new bridge. **Submissions close at COB Friday 13th November 2020.**

Comments can be submitted online at: www.dit.sa.gov.au/grep or you can print a form from the website and mail it to the following address:

Gawler Rail Electrification Project
PO Box 2566 Kent Town
DC SA 5071

You can also provide comments via email: dit.gawlerelectrification@sa.gov.au or pick up a form at one of our community events and provide feedback in person.

Share your thoughts on the proposed King Street Pedestrian Bridge:

We welcome your comments on the concept design for the King Street Bridge. Aspects to consider with regard to the concept design could include:

- Bridge design
- Colours
- Fencing
- Screening

Provide your comments overleaf if responding in person or via mail.
