

Main North Road, Kings and McIntyre Roads Intersection Upgrade

Construction Commencement

The Department for Infrastructure and Transport (the Department) is upgrading the intersection of Main North Road, Kings Road and McIntyre Road to improve travel times, connectivity, capacity and safety for all users.

The \$13 million project is jointly funded (50:50) by the Australian and South Australian governments.

Works for the project will commence late January 2021.

Day works

Works including site survey and pavement saw cutting along Main North Road will commence **from Monday, 25 January to Friday, 29 January 2021, between the hours of 7am and 5pm.**

Night works

In order to minimise the impact to road users works will be undertaken at night along Main North Road. This will include the installation of:

- steel roadside barriers, to commence **from Monday, 1 February to Friday, 5 February 2021, each night between the hours of 6pm and 6am.**
- temporary line-marking, to commence **from Monday, 1 February and continue for approximately five nights, each night between 7pm and 7am, weather permitting.**

Speed and lane restrictions will be in place in the vicinity of the works, however the intersection will remain open to traffic at all times. Please take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Access for properties will be maintained throughout the works and every effort will be made to minimise impacts to surrounding properties and road users, as much as practically possible. Where works will restrict property access, the project team will contact affected property owners to discuss.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be a need to restrict some access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

Upcoming activities:

Construction works for the intersection upgrade will commence late January 2021, with project completion expected mid-2021, weather permitting.

The majority of works will be undertaken Monday to Saturday, between 7am and 5pm. However, night works will be required on several occasions. Advance notice of these works will be provided as works progress.
