

SAMIS Build 13.26

Overview

The SAMIS Build Initiatives & Enhancements Communication Bulletin contains information about business and system changes that have occurred and been deployed into SAMIS production.

Deployment Date

7th March 2019

Enhancement Details

- **SE-361 Removed Author Name from Documents and Images**
The author's name has been removed from the Documents and Images screen and is no longer required to be entered by the person cataloguing the updated drawings COGNOS reports that are required to support the interface and SAMIS.
- **SE-327 SAMIS Searching Request – Attributes and Search Function**
When selecting a record after using the Advance Search or Asset Search Options, additional information relating to the record will now be displayed.
- **SE-253 Add Password Reset Function**
The users now has the ability to reset their own password if a password has been forgotten or the account has been locked.
- **SE-365 Bring Down the SAMIS ID Number from URL to the Bread Crumb Trail**
The SAMIS ID number will now appear in the breadcrumb trail across the top of the SAMIS page and will also be present in the General Details screen.
- **SE-307 Modify SAMIS Time-Out**
A web page message will now appear when the screen has been left unattended for 17 minutes indicating to the user has 3 minutes remaining before the system times out.
- **SE-391 Unable to Select Levels/Rooms on Services FDE for Site that only have one Building**
A SAMIS Fast Data Entry screen bug has been corrected to allow users to select rooms from the drop-down list where there is only one building on the site.
- **SE-353 Unable to add Room via Fast Data Entry for Asset 09781**
SAMIS had been displayed an incorrect error message when adding a room that already existed. This has been corrected to display the correct error message.
