

# Port Lincoln Intersection Safety Upgrade Project

## Works Notice

We are undertaking improvements to the Eyre Peninsula road network. These works are funded by the Australian (80%) and South Australian governments (20%) under the Roads of Strategic Importance (ROSI) program.

### What's happening:

We are upgrading four key intersections along Lincoln Highway through central Port Lincoln.

Works will soon commence at the Flinders Highway/Light Street and New West Road/Lewis Street intersections, **with both upgrades expected to be complete by May 2024** (weather permitting). Work at the remaining intersections will start following these works. Advance notice will be provided.

We are also planning pavement rehabilitation works along the main street (Lincoln Highway) in the centre of Port Lincoln, including the car parking bays.

These works are being delivered in conjunction with the City of Port Lincoln and are funded by the State Annual Asset Renewal program. More information about these works will be provided as designs progress.

### How this affects you:

To do this work safely, speed and lane restrictions will be in place during work hours. Some local side street detours may be required during these works, with advance notice to be provided via onsite signage. Please follow traffic management directions while works are in progress.

During the works, there might be some noisy disruptions from time to time, but we'll do our best to keep the noise to a minimum. We'll maintain access for properties throughout the works wherever possible, with advance notice provided if there is a need to restrict driveway access temporarily. **Access for emergency vehicles will be maintained at all times during works.**

#### When

From Monday 5 February until late May 2024

#### Hours of operation

Monday to Friday between 7am and 5pm

Some Saturday works may be required

#### Where

- Flinders Highway/Light Street, Port Lincoln
- New West Road/Lewis Street, Port Lincoln

Australian Government

Government of South Australia

Department for Infrastructure and Transport
