North-South Corridor
Darlington Upgrade Project

Project Length:
- 3.3km
- 2km of Lowered Road

70,000m³ of Concrete

Benefits:
- Improved traffic efficiency and safety
- Enhanced pedestrian and cyclist access
  - Two-way cycling paths and dedicated footpaths along both sides of the corridor

Employment Opportunities:
- The project will support approximately 370 jobs per year during construction

- 73,000 Vehicles per day on Main South Road
- 98,000 Vehicles per day use the Main South Road intersection with Sturt Road
- 73,000 Vehicles per day

- 30 Intelligent Transport Gantries
- 1,500 Soil Nails
- 13km of Drainage Systems
- 860,000m³ of Spoil to Dispose of
- 8 Road Bridges

73,000
Vehicles per day

Benefits:
- Two-way cycling paths and dedicated footpaths along both sides of the corridor
