

Main North Road, Kings and McIntyre Roads Intersection upgrade

The Australian and South Australian Governments have announced \$13 million in joint funding to upgrade the Main North Road, Kings and McIntyre Roads Intersection to improve travel times, network reliability and safety for all users.

The current proposed treatments for the intersection upgrade include:

- widening of Main North Road, with the installation of an additional right turn lane into Kings Road, and three through lanes heading south on Main North Road;
- widening of Main North Road, with the installation of an additional right turn lane into McIntyre Road, and three through lanes heading north on Main North Road;
- installation of additional through lane on Main North Road between Freda Thompson Place and Kings Road (north-east bound);
- installation of additional through lane on Main North Road between McIntyre Road and Kesters Road (south-west bound);
- extension of dual right turn lanes heading north-east from McIntyre Road onto Main North Road;
- separation of left turn traffic from Main North Road onto Kings Road and left turn traffic from Kings Road onto Lawrence Hargrave Way;
- new and upgraded pedestrian ramps and footpaths around the intersection;
- dedicated bicycle lanes on both approaches of Main North Road; and
- new and upgraded traffic signals, road lighting, line marking, and drainage.

Have your say

The Department of Planning, Transport and Infrastructure would like to invite the community and project stakeholders to provide feedback on the early concept design. All feedback will be provided to the project team for review and consideration, and will help inform the detailed design.

To view the draft concept design and provide feedback, please visit the project website at: www.dpti.sa.gov.au/kingsmcintyre. Feedback can be provided until COB Friday, 20 March 2020.

Early site investigation works

As part of the early design process, site investigation works to identify the location and depth of all utility services in the vicinity of the proposed upgrade will occur in the coming weeks, continuing throughout February and early March.

These works will be undertaken during the day, Monday to Friday, between the hours of 9am and 4pm, weather permitting.

Speed and lane restrictions will be in place in the vicinity of the works, however the road will remain open to traffic at all times. Access for properties, pedestrians and cyclists will also be maintained and every effort will be made to minimise impacts to surrounding properties and road users where possible.

Early works are expected to commence in the second quarter of 2020, with major construction expected to commence in late 2020.

If you require further information or would like to register your interest in the project, please visit the above website, email dpti.communityrelations@sa.gov.au or telephone 1300 794 880.
