

Cross Road and Fullarton Road Intersection Upgrade - Proposed Treatments

Indenting of bus stop 12 on the west side of Fullarton Road (north).

Widening of Cross Road, with the installation of a dedicated right turn lane into Fullarton Road (southbound), three through lanes heading east on Cross Road and a dedicated left turn slip lane onto Fullarton Road (northbound).

Widening of Fullarton Road, with the installation of dedicated right turn lanes into Cross Road (westbound), two through lanes heading south on Fullarton Road and a shared through and left turn lane onto Cross Road (eastbound).

Relocation of bus stop 165 on the north side of Cross Road.

Relocation of bus stop 165 on the south side of Cross Road.

Indenting of Urrbrae Agricultural High School bus stops on the south side of Cross Road (west).

Widening of Cross Road, with the installation of a dedicated right turn lane into Fullarton Road (northbound), three through lanes heading west on Cross Road and dual left turn lanes onto Fullarton Road (southbound).

URRBRAE AGRICULTURAL HIGH SCHOOL

WAITE ARBORETUM

Other proposed treatments include:

- Upgraded pedestrian crossings within the intersection, including ramps, dedicated on-road bicycle lanes on all approach exit lanes to/from the intersection.
- Pavement construction and surfacing.
- New and upgraded traffic signals.
- LED road lighting for the extent of the works.
- New line marking and drainage.

Widening of Fullarton Road, with the installation of dedicated right turn lanes into Cross Road (eastbound), three through lanes heading north on Fullarton Road and a dedicated left turn slip lane onto Cross Road (westbound).

A seagull median treatment on Fullarton Road for access to Urrbrae Agricultural High School.
