

West Beach Boat Ramp Upgrade

Works will include replacement of the concrete slabs, extension of the boat ramp into deeper water, modification to the inner northern breakwater, and minor remediation works on steel piles.

During these works, the Department for Environment and Water (DEW) will be continuing with beach remediation works, and West Beach Parks will be undertaking repairs to the pontoons.

Truck movements remain consistent with DEW works, with some occasional truck movement across the northern beach.

Access to grassed area and northern beach will be maintained

Modification to the inner northern breakwater

Replacement of the concrete slab including extension of the ramp, and maintenance of the steel piles

BUSINESSES REMAIN OPEN
