

# Majors Road Interchange

## Project Announcement

**The Australian and South Australian governments have recently committed to jointly funding (50:50) the \$120 million construction of a new interchange for the Southern Expressway at Majors Road, O'Halloran Hill.**

Majors Road is an important arterial road, providing a key connection between Lonsdale Road and Main South Road. Majors Road currently carries approximately 13,200 vehicles per day. The Southern Expressway carries approximately 74,000 vehicles per day between Darlington and the Reynella interchange and supports economic activity in Adelaide's southern commercial and industrial areas, and facilitates tourist travel on the Fleurieu Peninsula.

The Majors Road Interchange Project will provide commuters in the southern suburbs further access to the Southern Expressway, whilst providing all commuters improved access to Glenthorne National Park - Ityamaitpinna Yarta, Sam Willoughby International BMX Facility and Southern Soccer Facility from the Southern Expressway.

Community and stakeholder consultation is vital to the successful delivery of this project, and we look forward to engaging with you to help inform the design process.

Site investigations, including geotechnical and service investigations, will be commencing shortly. These investigation activities will help us better understand the existing conditions. The information collected as part of these works will help inform the project's design. These works will only be carried out within the existing road corridor.

The project team will be in contact with stakeholders immediately adjacent the works to provide more information about these site investigation activities prior to work commencing.

To register for future project updates, including opportunities to share your feedback, please contact the project team at the following:
