

Glen Osmond Road and Fullarton Road Intersection Upgrade

Campbell Road Temporary Closure

The Australian and South Australian Governments have jointly funded (50:50) \$35 million to upgrade the Glen Osmond Road and Fullarton Road intersection. Once complete, the upgrade will improve travel times and road safety, increase intersection capacity and enhance network reliability.

As part of this project, the existing overhead SA Power Networks (SAPN) infrastructure (stobie poles and overhead connections) near the project area will be removed and connected to a new underground network. Works to install the new underground network along Fullarton Road will be undertaken across Campbell Road in the coming weeks.

What to expect

Works will involve service locating, trench excavation and installation of the new SAPN infrastructure. Works will occur on the eastern end of Campbell Road (adjacent Fullarton Road) and are scheduled to be undertaken from Tuesday, 14 June 2022, through to Tuesday, 28 June 2022, weather permitting. Hours of work are Monday to Saturday, between 7am and 5pm.

To safely facilitate these works, **access at the Campbell Road junction with Fullarton Road will be temporarily restricted during the works. Access for local residents and emergency services will be maintained throughout the works.** All other traffic will need to detour via Birks Street and Hone Street. Please follow local detour signage and traffic controller instructions.

Some noise disturbances can be expected at times while these works are completed, however, the work will be managed to minimise disturbance to nearby residents as much as practically possible.

Access to properties will be maintained and every effort will be made to minimise impacts to surrounding properties and road users, as much as practically possible.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

The Department for Infrastructure and Transport appreciates your patience and cooperation whilst these important works are undertaken.
