

Media Release

5 October 2019

Changed access to Southern Expressway and Main South Road

As part of the Darlington Upgrade Project, access to the Southern Expressway via the Main South Road on-ramp from Flinders Drive, will be closed from 8pm Sunday 13 October for approximately three weeks.

This temporary closure is required to facilitate piling works.

During this time, motorists wanting to access the Southern Expressway will need to enter the lowered motorway at the Ayliffes Road and South Road intersection or access via the Marion Road on-ramp.

Motorists will still be able to turn left out of Flinders Drive to enter the lowered motorway as per current arrangements.

The works will result in traffic restrictions on the southbound carriageway of Main South Road, between Sturt Road and Flinders Drive to safely accommodate the piling rig and construction activities.

Two lanes of southbound traffic through this section of Main South Road will reduce to one lane between the hours of 8pm-6am, Thursdays to Mondays during the three week period.

We thank you for your patience while these important works are undertaken. For more information on the Darlington Upgrade Project visit https://dpti.sa.gov.au/infrastructure/nsc/darlington_upgrade_project

Changed access to Southern Expressway Main South Road traffic restrictions October 2019

The Main South Road on-ramp to the Southern Expressway will be temporarily closed from 8pm Sunday 13 October for approximately three weeks.
Southbound motorists wanting to access the Southern Expressway will need to enter the lowered motorway from the Ayllies Road/South Road or the Marion Road on-ramp.

Aside from the movements highlighted on the plan below, all other movements will remain as they currently are.

- Legend**
- Work Zone - surface roads
 - Surface roads
 - Road closed
 - Work Zone - lowered motorway
 - Lowered motorway
 - Motorway access to Southern Expressway

Southbound traffic lanes on Main South Road between Shurt Road and Flinders Drive will be reduced during the works to safely accommodate the piling rig.
Two lanes of traffic will be available during the day and one lane of traffic will be available during nightworks.
Nightworks will occur between the hours of 8pm-6am on Thursdays, Fridays, Saturdays, Sundays and Mondays during the three week period.
