

Wynn Vale Drive and Bridge Road Junction Upgrade

Site Investigation Works

We are working to improve access and safety along Wynn Vale Drive. This forms part of the State Government's election commitments to upgrade or investigate potential upgrades in the northern suburbs to improve safety, access and make travel easier for all users.

What's happening:

We are undertaking site investigation works, including geotechnical drilling, to further inform the design of the junction upgrade.

How this affects you:

To do this work safely, we will have speed and lane restrictions in work areas. Please plan your trips, be cautious around workers, and follow the speed limits and signage.

Access to properties will be maintained for the duration of works, and we will ensure every effort is made to minimise impacts to surrounding properties and roads. Minor noise disturbances can be expected while works are being undertaken, but we will minimise any disturbance to residents as much as practically possible.
