

Cross Road and Fullarton Road Intersection Upgrade

Ringarooma Avenue temporary closure and nightworks

The Australian and South Australian governments have jointly funded (50:50) \$61 million to upgrade the Cross Road and Fullarton Road intersection. Once complete, the upgrade will improve travel times and road safety, increase intersection capacity and enhance network reliability.

As part of this project, stormwater drainage installation works will be undertaken shortly on Fullarton Road, at the junction with Ringarooma Avenue, Myrtle Bank.

What to expect

To minimise the impact to road users, **these works will be undertaken at night.**

Works are scheduled to commence on **Tuesday, 13 December 2022 and are expected to be completed the morning of Monday, 19 December 2022**, weather permitting. Hours of work are between 7pm and 6am. No works will be undertaken on Saturday night.

To safely facilitate these works, **Ringarooma Avenue will be closed at Fullarton Road during the works.** Motorists will be required to detour either via Cross Road and Hexham Avenue or Clinton Avenue and Hexham Avenue. Please refer to the map overleaf for details. Please follow local detour signage and traffic controller instructions.

There may be some impacts to private property driveways within the work zone. The project team will contact any affected property owners directly.

Some noise disturbances can be expected at times while these works are completed, however, the work will be managed to minimise disturbance to nearby residents as much as practically possible. Access to properties will be maintained and every effort will be made to minimise impacts to surrounding properties and road users, as much as practically possible.

Please plan ahead, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area. Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

We appreciate your patience and cooperation whilst these important works are undertaken.

Further information

For more information, or to register for project updates please contact the project team via the details below:
