

# Goodwood, Springbank and Daws Road Intersection Upgrade

## Pavement works along Goodwood, Springbank and Daws Roads

Works to install new pavement along Goodwood Road, Springbank Road and Daws Road to facilitate the new four-way intersection, will be undertaken throughout the day and night during the April 2021, school holidays while traffic volumes are lower. This allows works to be completed in a shorter timeframe, minimising the duration of construction impacts to traffic and the surrounding community.

Night works, traffic restrictions and weekend intersection closures will occur from 7pm Friday, 9 April 2021, until late April 2021, with limited access to Goodwood Road from Springbank Road and Daws Road.

During this time, a number of traffic switches will be implemented. Please see maps and additional details overleaf for traffic restrictions.

Signage will be placed at key locations to provide advance notice to motorists of the change in access arrangements. Access will be maintained for buses and emergency services vehicles at all times.

Please plan ahead and allow extra travel time, take extra care when workers are on site, and observe speed and lane restrictions, traffic controllers and signage when travelling through the area.

**Please note that during morning peak periods, two lanes will be maintained for traffic heading north to the city and one lane for traffic heading south on Goodwood Road. This will be reversed for the afternoon peak period.**

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there will be restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

Access to properties during these works will be maintained, however at times this will be under the assistance of traffic controllers. Every effort will be made to minimise impacts to surrounding properties and road users, as much as practically possible.
