southern expressway duplication
July 2013 construction activities

northern region (Bedford Park to Lander Road)
- Majors Road bridge extension works continue, including temporary propping and pier construction
- Sturt River Bridge duplication works due for completion.
- Asphalt works on the new expressway corridor north of Majors Rd
- Installation of permanent barriers on the expressway
- Removal of noise barriers in some locations
- Relocation of temporary concrete barriers on expressway to south of Seacombe Road
- Soil nail wall construction north of Seacombe Road in readiness for noise barrier construction
- Rock stability works in the Darlington Escarpment
- Continued operation of crushing plant to crush rock from across the project for reuse

Equipment: Road trucks and trailers, rock breaker, off-highway trucks, water carts, crushing plant, excavators, Vermeer Trencher

Expect: some noise (including reverse beepers), dust, road trucks on public roads, speed and lane restrictions at Marion Road Interchange, speed changes on expressway, continued extended expressway closures

central region (Lander Road to Sherriffs Road)
- Sherriffs Road Interchange works continue, including piling works to construct the centre bridge pier, construction of the new off-ramp and construction of reinforced earth walls
- Construction of the on-ramp flyover at the Reynella Interchange continues
- Moore Road bridge extension works continue. Scheduled for completion in July 2013.
- Completion of works at Lander Road arch
- Construction of rock platforms for crane lifts at Smith Creek bridge
- Works continue to remove rock from the escarpment north of Smith Creek, Reynella, using rock breakers
- Bulk earthworks continue with the use of off-highway trucks and road trucks to cart earth fill near Young Street
- Installation of stormwater drainage
- Trucks entering and exiting expressway
- Installation of permanent barriers on the expressway

Equipment: Road trucks and trailers, off-highway trucks, moxie trucks, water carts, rock breaker, piling and drilling rigs, Vermeer Trencher

Expect: speed and lane restriction changes during piling works at Reynella Interchange, some noise from rock breaker and reverse beepers, dust, road trucks on public roads, speed changes on expressway, continued extended expressway closures, traffic restrictions on Sherriffs Road during interchange works

southern region (Sherriffs Road to Old Noarlunga)
- Installation of steel structures, anti-throw screens and new barriers at Poznan, Perry, Peppermint and Glenhelen pedestrian paths
- Peppermint and Perry Paths are due to open in mid July 2013.
- Glenhelen Path is due to open in late July 2013
- Poznan Path is due to open in early August 2013
- Flaxmill Road bridge closure from 13 July 2013 until early 2014
- Asphalt works on the new expressway carriageway north of Honeypot Road and at the Beach Road Interchange ramps
- Bulk earthworks continue with road trucks carting soil north to the Reynella interchange and Young Street from north of Flaxmill Road
- Beach Road widening works continue with services crossings, installation of lighting, drainage works and asphalt works
- Traffic to be moved to the northern side of Beach Road to allow works to commence on southern side of interchange
- Installation of stormwater drainage
- Installation of permanent barriers on the expressway
- Pier construction and girder installation at Christies Creek Underpass
- Trucks entering and exiting Expressway

Equipment: road trucks and trailers, road profiler, excavators, water carts, cranes, truck and jinker

Expect: Changes to traffic conditions on Beach Road at Expressway with traffic moved to the northern lanes, speed changes on expressway, noise (including reverse beepers) and dust, road trucks on public roads, night works for services installation
