

Glen Osmond Road and Fullarton Road Intersection Upgrade

Night works

The Australian and South Australian governments have jointly (50:50) committed \$35 million to upgrade the Glen Osmond Road and Fullarton Road intersection. Once complete, the upgrade will improve travel times and road safety, increase intersection capacity and enhance network reliability.

During these upgrade works, **the intersection will remain open to traffic at all times.**

To safely undertake these works speed and lane restrictions will be in place in the vicinity of the works. While the majority of works will continue during the day night works will also continue as required.

Night works

Night works for the installation of drainage, road lighting conduits and asphalt will be undertaken in various locations through and around the intersection from early February 2023, until March 2023, weather permitting. Hours of work will be between 7pm and 6am, Sunday to Thursday, as required.

Please take extra care when workers are on site and observe speed limits, lane restrictions and traffic controllers when travelling through the area. Access to properties will be maintained throughout these works.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible. This includes scheduling intrusive works early evening where possible. You may also notice some odour which is common when asphaltting works are underway.

The project team will contact individual property owners if driveway access is affected by the works.

Further information

For more information, or to register for project updates please contact the project team via phone on 1800 271 168, by email to DIT.GlenOsmondFullarton@sa.gov.au or by visiting www.dit.sa.gov.au/glenosmond.

We appreciate your patience and cooperation whilst these works are undertaken.

Kind regards

Glen Osmond Road and Fullarton Road Intersection Upgrade project engagement team
