

Northern Adelaide Suburbs Road Upgrades

The Grove Way, Atlantis Drive and Aeolian Drive, and The Grove Way and The Golden Way intersection upgrades

We are upgrading two intersections along The Grove Way in Golden Grove

These projects are part of the State Government's election commitment to upgrade or investigate potential upgrades in the northern suburbs to improve safety, access and to make travel easier for all users.

What's happening

Works are continuing at the intersections of The Grove Way, Atlantis Drive and Aeolian Drive and The Grove Way and The Golden Way.

To ensure works are completed as quickly as possible in early 2025, and minimise impacts to local residents, the remaining works will be undertaken during the day. Some night works may be required intermittently.

How this affects you

To do this work safely, speed and lane restrictions will be in place during working hours. Please plan your trips and follow the direction of on-site traffic controllers. Speed restrictions will remain in place outside of working hours until all works are completed.

Some local side street detours may be required during these works, with advance notice to be provided via onsite signage. Please follow traffic management directions while works are in progress.

Pedestrians and cyclists, please be cautious, some areas might have limited access for safety. Onsite signage will be in place to guide you to alternative routes as required.

Some property access may be temporarily impacted during the night works, but we will do our best to maintain access to businesses in the area. The project team will contact affected property owners, residents, and businesses directly in advance.

Access to buses will be maintained, however, please check the latest updates on scheduled services at adelaidemetro.com.au

No works will be undertaken between Friday 20 December 2024 and Monday 6 January 2025. Speed restrictions will remain in place during this time.

We thank you for your patience and understanding while we undertake these critical safety upgrades.
