

Naracoorte Roundabout Upgrades Project

Dear Resident / Business Owner,

As part of the \$330 million allocated for the South Australian Rural Roads Package, the Australian and South Australian Governments are jointly funding the upgrade of two roundabouts in Naracoorte. The project to be delivered by the Department of Planning, Transport and Infrastructure is scheduled to commence construction on Wednesday, 1 April, weather permitting.

Works will be undertaken on the Riddoch Highway / Wimmera Highway (Smith Street) / Lucindale Road roundabout, and will include the full reconstruction of the roundabout. Detours will apply during construction.

In addition, works will occur on the Wimmera Highway (Smith Street) / McRae Street roundabout, and will include the modification of the roundabout central island, and minor kerb realignment.

Works at both sites will be occur between 7am and 5pm each day, based on a roster of 11 days on, three days off.

Speed and lane restrictions will apply during construction at both roundabouts. Signage will be in place to provide advance notice to motorists. Please plan ahead, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Some noise can be expected at times while these works are completed, however the work will be managed to minimise disturbance to local residents and businesses as much as practically possible. Access to businesses and surrounding properties will be maintained at all times.

The proposed upgrades will enable double road trains, (no greater than 36.5 metres) to travel through the roundabouts, allowing access for heavy vehicles to the Naracoorte Saleyards and industrial zones and improved safety for all road users.

The project is expected to be completed in June, weather permitting.
