

# Ovingham Level Crossing Removal

## Investigation works

As part of the early design process for the Ovingham Level Crossing Project, survey and site investigation works to identify the location and depth of utility services will be undertaken at various locations along Torrens Road for approximately five week, **commencing Monday 27 April 2020.**

### Hours of work:

- Between 9:00am and 5:00pm Monday to Friday

### Location of works:

- Torrens Road, between Wattle Street and Park Terrace

Speed and temporary lane restrictions will apply in the vicinity of the works, with traffic management in place to advise motorists of changed traffic conditions. Please take care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Whilst there will be some temporary impacts at various locations for pedestrian and cyclists, access will however be maintained at all times, with traffic controllers onsite to assist. Public transport services will not be affected.

To register for project updates or to find more information please visit:
