

WORKSHOP NO2

Big Build Safety Forum May 2017

Outline of the Agenda of the May 2017 Meeting;

- Action Plan: Consistent Reporting and Incident Escalation Systems
- Action Plan: Development of Minimum Standards Action Plan:
- Action Plan General
 - Safety Walks
 - Industry Engagement
 - Next Big Build Meeting

Key Actions	Status
Proposed Lead and Lag Indicators for Safety Performance presented and accepted for use across the Big Build projects.	Indicators and reporting proforma to be distributed by End of June for 1 st quarter data collection in September 2017.
Minimum Standards: Draft of DPTIs minimum safety standards established for review and completion by a small work group before wider review & discussion.	Meeting of working group set for 16 June. Proposed minimum safety standards to be presented at next Forum meeting with a roll-out/engagement strategy.
The Safety Culture Outcome Based Measures tools was tabled by DPTI.	Endorsed by group for trial on Big Build projects.
Joint Safety Walks to be continued as there have been some great feedback and learning. It has been suggested that members of the Big Build should partner with DPTI members who are conducting Safety Walks to provide some upskilling in this area.	Future walks to be scheduled.
Engagement with CCF & MBA.	MBA & CCF to be invited to the next Big Build Meeting.
Map out the Industry Safety Journey.	Draft to be presented next meeting.
Commence planning for a whole of Industry Safety Forum	

Next Big Build Safety forum to be hosted by Lendlease – (Target - End of July)
