

# Old Granite Island Causeway Marine Exclusion Zone

An exclusion zone has been established around the old Granite Island Causeway while decommissioning works are undertaken.

This zone is marked with floating buoys and extends approximately 300 metres north of the old Causeway to approximately 300 metres south of the old Causeway.

It will remain in place until works are completed in the second half of 2022.

For safety reasons, mariners, swimmers and all other aquatic users are prohibited from entering the exclusion zone.
