

Cross Road and Fullarton Road Intersection Upgrade

Night works update

The Australian and South Australian governments have jointly funded (50:50) \$61 million to upgrade the Cross Road and Fullarton Road intersection. Once complete, the upgrade will improve travel times and road safety, increase intersection capacity, and enhance network reliability.

During works on this upgrade, **the intersection will remain open to traffic at all times.** Speed and lane restrictions will be in place in the vicinity of the works.

While the majority of these works are being undertaken during the day, some night works are required to ensure the works can be undertaken safely and efficiently. Due to significant wet weather in recent months, the project team will be undertaking works on Friday nights for a short period to ensure that works can be completed ahead of the holiday period.

There will be a site shutdown over the holiday period, between Friday 23 December 2022 and Tuesday, 2 January 2023, where no works will be undertaken.

Ongoing night works

Night works will continue to be undertaken in various locations through and around the intersection as required between the hours of 7pm and 6am, Sunday to Friday, until late December 2022, weather permitting. Some works may also need to be undertaken on Saturday nights and in adjacent side streets. At least one respite night, where no works are undertaken, will be provided each week.

Advance notice of future night works will be provided as works progress.

Please take extra care when workers are on site and observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible. This includes scheduling intrusive works during the day or early evening where possible. You may also notice some odour which is common when asphaltting works are underway.

The project team will contact individual property owners if driveway access is affected by the works.

Further information

For more information, or to register for project updates please contact the project team via phone on 1800 271 168, by email to DIT.CrossFullarton@sa.gov.au or by visiting www.dit.sa.gov.au/cross_fullarton

We appreciate your patience and cooperation whilst these important changes are implemented.

Kind regards
