

Heysen Boulevard level crossing

New rail level crossing site establishment activities

The State Government and Mount Barker District Council have committed \$5 million towards the construction of a new rail level crossing on Heysen Boulevard.

These works will provide connectivity to a crucial thoroughfare and offer an improved travel solution for Mount Barker residents.

What's happening:

Site establishment activities will be undertaken from mid-January until late March 2024 while the Steam Ranger is not in operation in the Mount Barker area. These activities will involve preparing the ground works, including modification to the rail tracks and installation of utility services.

The detailed design for the project is currently underway. Once finalised, more information will be provided, including the timing of when major works will start and when the project will be finished.

How this affects you:

Please follow traffic management directions while works are in progress. Access to properties will be maintained and we will make every effort to minimise impacts to the local community.

For further information:

If you would like to register to receive project updates via email, have any questions or to provide feedback on the project, please either:

- Email DIT.Engagement@sa.gov.au
- Visit www.dit.sa.gov.au/heysenboulevardxing
- Call 1300 794 880

When

Site establishment activities - From mid-January until late March 2024

Hours of operation

Day Works: 7am – 5pm
Monday - Saturday

Where

Heysen Boulevard, Mount Barker
