

North-South Corridor

Darlington Upgrade Project

Flinders Drive intersection with Main South Road Upcoming works and traffic shift November 2016

Median removal, traffic signal relocation and drainage works are underway at the Flinders Drive intersection with Main South Road in preparation for an upcoming traffic switch on 25-28 November 2016.

From Monday 7 November 2016, these works will be undertaken during the night (between the hours of 8pm and 6am) on Flinders Drive in order to maintain traffic flows through this busy and critical location.

The traffic switch will occur from 8pm on Friday 25 November until 6am on Monday 28 November 2016. This will involve the intersection being moved approximately 20m to the north of its current location in order to provide the required space for upcoming bridge works.

As part of the traffic switch, the pedestrian crossing on Main South Road will be moved to the northern side of the intersection to ensure that pedestrians are located away from the main bridge construction area.

To access the relocated crossing, pedestrians will be directed 100m along the western side of Flinders Drive to a new crossing point. They will then cross Flinders Drive (the centre will be widened at this location to allow for a safe waiting area) and walk along the eastern side of the road to the signalised crossing at Main South Road.

A u-turn facility will remain available for northbound vehicles on Main South Road and will be located north of Richard Street.

Speed and lane restrictions will be in place while the above works are undertaken, access through the intersection and along Flinders Drive will be maintained at all times. Temporary traffic signals will be in operation during the weekend of the traffic switch. Road users are asked to take care and observe signage when travelling through work areas.

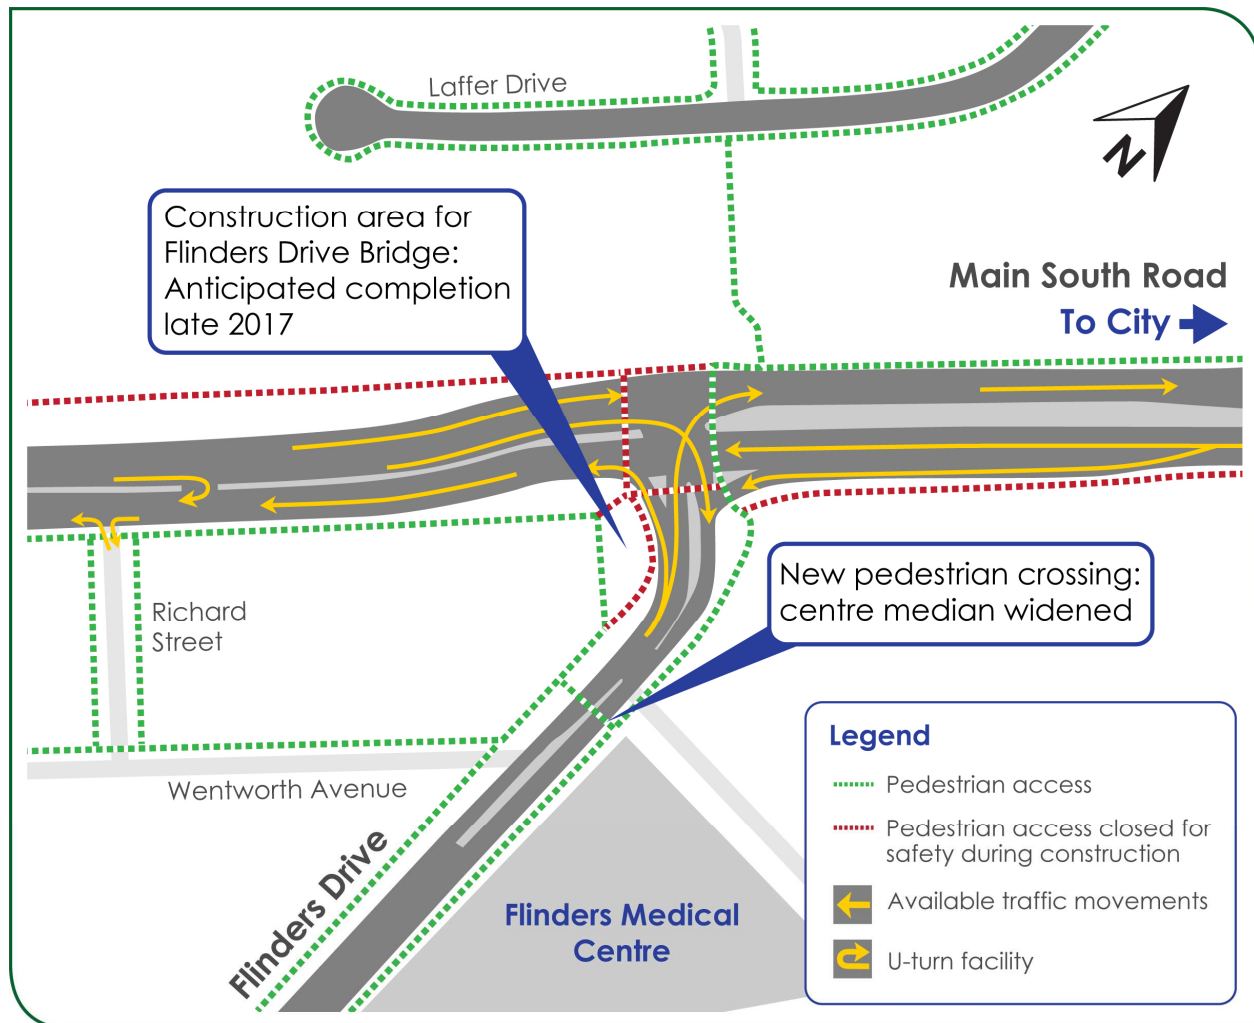

From Monday 5 December 2016, works will commence to facilitate the construction of retaining walls required for the lowered motorway. Flinders Drive bridge works will commence in early 2017. These works are scheduled for completion in late 2017.

If you have any questions or would like to speak to a member of the project team please contact us on 1300 759 334 or email: enquiries@gatewaysouth.com.au. We thank you for your patience while these important works are undertaken.

Kind Regards,
Darlington Upgrade Community Engagement Team
